SKILLS

- **Languages:** C, Python, SQL, DBMS
- **Engineering Tools:** Arduino IDE, Proteus, VMware, Git, GitHub, VS Code
- **Domain Expertise:** Python Programming, Web Development
- **Soft Skills:** Problem-Solving, Communication, Teamwork, Leadership, Adaptability, Critical Thinking, Time Management

INTERNSHIP

CodeAlpha | AI/ML & Python Development

Jun 2026 – Jul 2026

- Developed three Python-based projects: Basic Chatbot, Stock Portfolio Tracker, and Smart File Organizer.
- Applied Python, file handling, data processing, automation, and modular programming to build functional applications.
- Used Git & GitHub for version control, project documentation, and repository management.

PROJECTS

Basic Chatbot | Python Basic Chatbot | GITHUB

Jun 2026

- Developed a rule-based chatbot using Python to handle user queries through interactive text-based conversations.
- Implemented conditional logic, keyword matching, and response handling for different user inputs.
- Structured the application into modular components for improved readability and maintainability

Stock Portfolio Tracker | GITHUB

Jun 2026

- Developed a Python-based stock portfolio tracking application to manage stocks, quantities, prices, and portfolio holdings.
- Implemented data processing and calculation logic to determine investment values and portfolio performance.
- Designed a command-line interface for adding, viewing, and managing portfolio information.

Smart File Organizer | GITHUB

Jul 2026

- Developed a Python-based file organization utility to automatically categorize files based on their extensions.
- Implemented file handling, directory management, and automation using Python.
- Automated file organization to improve file-management efficiency and reduce manual effort.

AI-Based Pest Detection System for Proactive Crop Management

Nov 2025

- Developed an AI-based pest detection system using computer vision and machine learning to identify pests from crop images.
- Applied image processing and deep-learning techniques for accurate pest classification and early detection.
- Designed an affordable smart farming solution to enable timely alerts, reduce crop damage, and minimize unnecessary pesticide usage.

International Qualifications

ACHIEVEMENTS

- **Selected among Top 10 teams** | Cognitia Techfest | LPU | Mar 2026
- Prompt-Builder 2026 – AI-Based Hackathon — LPU School of Computer Science and Engineering x InnovXus
- Completed all Dakshina Bharat Hindi Prachar Sabha (DBHPS) Hindi proficiency examinations, including the higher/degree-level examinations

CO-CURRICULAR ACTIVITIES

- Volunteered in Campus Paws | Campus Paws | LPU | Feb 2026

EDUCATION

- **Lovely Professional University**
B. Tech in Data Science and Engineering, CGPA: **5.67**
- **Pragati Junior College**
Class XII (PCM), Percentage: **72.9%**
- **Pragati E.M School**
Class X, Percentage: **84%**
